

# Denso Clear Outerwrap

light-duty Outerwrap for use with Denso petrolatum tape systems

## Composition

Denso Clear Outerwrap is a polyethylene film, supplied in roll form.

## Uses

Denso Clear Outerwrap is used to isolate the pipe and prevent formation of adherent deposits. The wrap also prevents operators from coming into contact with the underlying coating system.

## Characteristics

Denso Clear Outerwrap is:

- suitable for hand application,
- suitable for immediate service,
- not self-adhesive, and
- facilitates ease of handling.

## Application

See *Instructions for Use* for additional detail. Denso Clear Outerwrap is applied spirally and stretched under tension to conform to the substrate.

## Availability

100 mm x 150 m rolls

## Storage conditions

Store in a cool and dry place in original packaging. Avoid extremes of heat and direct sunlight.

## Waste material

Please do not discard waste material, including packaging, in the surrounding environment. Please follow all relevant legislation for disposal.

## Typical Properties

|            |                         |
|------------|-------------------------|
| Appearance | Clear, stretchable film |
| Thickness  | 20 µm                   |
| Length     | 150 m                   |
| Width      | 100 mm                  |

## Warning

Plastic films can accumulate static electrical charge, take suitable precautions.

Plastic films can suffocate if placed over the nose or mouth. To avoid danger of suffocation, keep product away from babies and children.
