

Denso[®]

DENSO TAPE[™]

THE TRADES CHOICE

A cold-applied petrolatum tape designed for corrosion prevention, sealing and waterproofing.

- ✓ **CORROSION PREVENTION.**
- ✓ **SEALING.**
- ✓ **WATERPROOFING.**

Denso Tape™ is a highly versatile corrosion prevention tape that is non-hardening, non-cracking and conformable over a wide temperature range.

Resistant to water, gases, mineral acids, alkalis and salts, Denso Tape is an ideal solution for a wide range of corrosion problems. It is easy to use, surface tolerant and long-lasting, offering effective protection below ground or underwater against corrosion on pipework, metal surfaces and cables, and for the temporary sealing of fractured mains and cable joints.

HISTORY

Winn & Coales (Denso) Ltd are leaders in corrosion prevention and sealing technologies and have been supplying corrosion prevention products for over 90 years. Denso Tape is manufactured at the company's manufacturing facilities in London, UK.

COMPOSITION

Denso Tape is a durable non-woven, synthetic fibre fabric impregnated and coated with a petrolatum compound.

SURFACE PREPARATION

Denso™ Petrolatum Tape systems require minimal surface preparation. Surfaces must be clean and dry and all loose rust, scale and flaking coatings removed by scraping or hand wire brushing.

STOCKED SIZES

Available in 10 metre rolls in varying widths (see below).

PRODUCT CODE	SIZE	UNITS PER CARTON
8101131	30 mm	40
8101102	50 mm	24
8101103	75 mm	16
8101104	100 mm	12
8101105	150 mm	8
8101136	200 mm	8
8101139	300 mm	6

THE DENSO P1 SYSTEM™

Denso Tape is a key component of the Denso P1 System for the protection of ferrous pipes, joints and fittings in accordance with 'Civil Engineering Specification for the Water Industry – 7th Edition.'

RELATED PRODUCTS

Denso Paste™

A soft paste for the preparation of metal surfaces prior to the application of Denso Tape. Denso Paste can also be used as a rust preventative for exposed metal and for bedding low temperature insulation.

Denso™ Profiling Mastic

Self-supporting, lightweight and flexible mastic for all sealing, filling and caulking purposes. Denso Profiling Mastic can be used to fill awkward angles on mechanical joints, flanges, fittings and valves prior to wrapping with Denso Petrolatum Tapes or Bitumen Tapes.

Weight for weight Denso Profiling Mastic will fill three times the volume filled by other brand mastics due to its low density.

Densyl™ Mastic

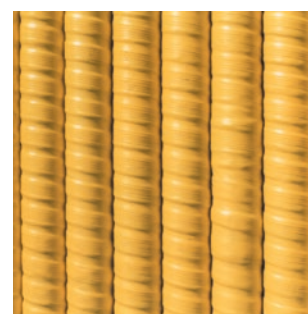

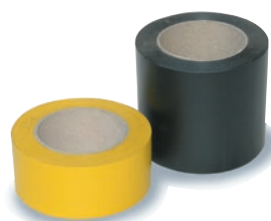

Self-supporting, flexible mastic for sealing, filling voids and caulking purposes. Used to fill awkward angles on mechanical joints, flanges, fittings and valves prior to wrapping with Denso Petrolatum Tapes or Denso Bitumen Tapes.

Denso™ PVC Self-Adhesive Tape

A PVC tape for overwrapping Denso Petrolatum Tape coatings to give extra mechanical protection where required or where physical contact is likely.

Uses include overwrapping tie rods, cables, plastic coated steel service pipes and Denso wrapped handrails.

REMEMBER

IF IT DOESN'T SAY **DENSO** ON THE OUTSIDE, THEN IT'S NOT **DENSO** ON THE INSIDE!
